

LARU15 Human Era – Nordic Environmental Art Exhibition is an international art project that takes place at an environmentally protected shoreline area in the district of Lauttasaari in Helsinki from 30.8.–4.10.2015. It is organised by LARU ART, an Helsinki-based artist-driven non-profit organisation. Operational since 2005, LARU ART produces international environmental art events in which media art and performance art have both featured prominently. To celebrate its first decade in 2015, LARU ART organises a three-day Nordic festival, LARU15. The opening ceremony of the festival is on Saturday 29 August. The festival programme includes a panel discussion on environment art, an evening of performance art, and an evening of video art.

PARTICIPATING ARTISTS Riikka Aresalo, Annette Arlander, Martin Binder, Sahar Burhan, Benedicte Clementsen, Juli Foos, Ingrid Furre, Saad Hajo, Lise Haurum Chirstensen, Ipe Heinonen, Heli Hietala, Sofia Hultin, Ingela Ihrman, Pauliina Jokela, Sanna Karlsson-Sutisna & Company, Anna Kinbom, Kaisu Koivisto, Anna-Lea Kopperi, Juha Sven Korhonen, Kristiina Ljokkoi, Oukalo Group (Suvi Ermilä, Pia Grüter, Riikka Keränen, Emilio Zamudio Murillo, Pia Lindman, Niko Nurmi), Leena Mäki-Patola, Eeva-Liisa Puhakka, Tomas de Rita, Otto Santala, Anna el Solh and Ósk Wilhjálmsdóttir.

CONCEPT The theme of the exhibition, *Human Era*, seeks to explicate and expand upon the complex network of relationships between humanity, the built environment, and nature. The age in which we live may justifiably be called the *Human Era*. Humanity is affecting the Earth on a scale comparable to the forces of nature. What is the individual's role and responsibility in this compared to the power of the entire species?
